

Founded in 1999 in Charlotte, NC, goodmortgage.com provides residential mortgage lending in 13 states.

goodmortgage.com provides online information, streamlined, personal processes and unmatched rate and loan choices to assist borrowers in their home purchases, refinancing and home equity loans. goodmortgage.com takes the mystery out of the lending process, truly establishing an environment **WHERE LOANS CLICK.**

Why is goodmortgage.com the lender for you?

We take a good thing and make it better.

Online lending provides speed, access, convenience and options.

goodmortgage.com enhances online lending by providing access to information, tools and choices that make you an informed borrower – BEFORE you apply.

From the convenience of your own home, you can research options, familiarize yourself with loan terms, qualification requirements, processes and language, submit an application and reach a loan expert – with a few clicks of your mouse.

AFTER you apply, our goodmortgage.info system provides detailed updates and superb service while your loan is in process.

After you submit your loan application, you will receive email updates with the status of your loan twice a week and at loan milestones - like Loan Approval. You also have access to a password-protected website at www.goodmortgage.info that shows you the progress of your loan – at your convenience.

BECAUSE goodmortgage.com provides:

- Nationally competitive rates and a broad range of loan programs.
- Technology-based tools that speed processing.
- Web-based resources available 24/7.

AND helps clarify the complex details of borrowing with:

- Mortgage School that provides knowledge, Loan Advisor and Mortgage Calculators that help set accurate expectations.
- 24/7 ability to apply for and track your loan online, completing the mortgage process and approval at your home, on your schedule, your way.
- Access to a fully licensed staff of mortgage experts reflecting more than 100 years of experience.

goodmortgage.com finds mortgage options that *click* with borrowers' needs, monitors loans details from beginning to end AND quickly closes *your* loan.
